

Town of Front Royal

ZONING PERMIT APPLICATION

FOR MINOR CONSTRUCTION PROJECTS

Page 1 – Instructions

This application is required for the issuance of a zoning permit for minor construction projects. Minor construction projects include residential construction that does not include the construction of a new dwelling. A separate application for major construction projects is available from the Department of Planning & Zoning.

The application review process begins with the completion and submission of the applicant's information on the following page (application form). In addition to the completion of the application form on page 2, other information is required for submission of an application. This includes the submission of a Survey of the Property, a Site Plan showing all proposed structures, utilities and other improvements in relationship to the property lines, and an Application Fee based on the fee schedule approved by Town Council. Other information may also be required depending on the project. Examples of additional information that may be required include building floorplans, construction specifications, and architectural renderings.

After all required information is submitted Planning & Zoning will review the application, typically within (3) business days. Once approval is granted, Planning & Zoning Staff will notify the applicant of the approval.

ADDITIONAL INFORMATION:

- All surveys must be certified by a registered land surveyor or engineer.
- Cash or check (made payable to the Town of Front Royal) may be used to pay the application fee. At the time of submittal, the application fee is due (\$25 residential accessory structure or addition).
- A zoning permit does not authorize the construction of any building or structure without a building permit. For projects within the Town of Front Royal, building permits may be obtained from the Warren County Building Inspections Department. You will need Town Staff to approve the building permit application to verify compliance of the Town Code before submitting a building permit application with Warren County.
- A Right-of-Way Utilization Permit may be required in addition to this permit for projects that impact the public right-of-way. Please ask Town Staff if you are unsure where the right-of-way is or to obtain an application for a right-of-way utilization permit.
- If the applicant is not the property owner, or a legally authorized agent of the property owner, the application will need to be signed by the property owner.
